Dear New Vistas School Community,

On behalf of the Board of Directors, faculty, staff, and the students of New Vistas School, we are pleased to share the following update with you regarding the progress of the Mind-Body-Spirit Capital Campaign. Since inception of the campaign in January 2018, New Vistas School has successfully raised over \$1.7 million in support of this campus enhancement. The end result will be an additional facility on our existing campus, providing current and future students with a dedicated space to exercise, play, and learn. Students will greatly benefit from their first-ever gymnasium, two science classrooms, and an art classroom.

This impactful project would not be possible without the numerous individuals, corporations, and foundations who have generously donated in support of the Capital Campaign. Every donation is valued, and every donation has helped us achieve record-breaking fundraising success. We recently received a donation to the Capital Campaign from an alumni's grandparent who made their gift as a tribute: "Our gift is in honor of all who have made - and make - New Vistas School succeed." This testimonial speaks volumes about the effect that all our constituents have - and continue to make - on our extraordinary school. Since 1986, our students, their teachers and families, along with our donors, have all impacted our continued success. We are excitedly awaiting the completion of our new building on campus, and we remain truly grateful to the NVS community for the outpouring of support of this meaningful project that aligns with our mission *to provide children with learning, attention, and emotional challenges with opportunities to reach their full potential.*

Construction of the new building is progressing very well, and we are appreciative of our partnership with Coleman-Adams Construction, Inc. The concrete floor is complete; the plumbing is roughed in; HVAC ductwork is in process, as is the stone mason work. The sitework continues, and a retaining wall and storm water maintenance is currently in process. We are targeting a Summer completion of the project, and we anticipate operating in our new facility next school year.

Thank you to all who have supported the Capital Campaign. You have made a difference in the lives of these exceptional children.

For the School,

Lori M. Eaglin, Ed. S.
Head of School

Gorham B. "Bunny" Wood
Chair, Board of Directors
